

# Hide & Seek

## Objective

Teams of two work best here. The object of this drill is to draw behind guards in an effort to prevent, or at least make it as difficult as possible for your opponents to remove your stone from play.

One team manually places a guard stone. That team then attempts to hide behind it.

The opposing team's task is to remove that stone from play.

If the drawing team fails to draw behind the guard, it's a simple matter of an open takeout.

If the draw behind the guard is successful, then we're talking a down weight takeout or possible a promotion of the guard onto the target stone.

## Scoring

A point to the hitting team if the drawn stone is removed from play but the drawing team scores the point if the hit is unsuccessful.
