Weight control

Objective

The concept is simple.

Each player delivers his/her two stones, sweepers and skip in place.

The lead delivers a stone. Wherever that stone comes to rest, it is pulled directly to the side line. It then becomes the new hog line.

The lead's second stone must get over the new hog line. If it does, as with the first stone, it is pulled directly to the side and becomes the new hog line.

If the stone does not reach or slides through the house it's out of play (as per a normal game).

The object of the drill is to get all eight stones over the hog line.

Hint: If the delivered stone overlaps the hog line stone, I count it. You set the rules for your team!

Scoring

One point for every stone in play.
